

Adobe® Connect™

Adobe Connect powers mission-critical web conferencing solutions end-to-end, on virtually any device

Adobe Connect is a web conferencing platform for web meetings, eLearning, and webinars. It goes beyond screen sharing, and delivers end-to-end solutions to drive critical business processes across virtually any device, and enables organizations from leading corporations to the largest government agencies, as well as individuals, to fundamentally improve productivity.

Below is a high-level summary of features available across Adobe Connect solutions. Adobe Connect can be purchased in several ways; with a variety of flexible licensing options for enterprises/businesses/agencies, and online purchasing options for individuals. Adobe Connect for enterprises/ businesses/ agencies enables solutions for [web meetings](#), [eLearning](#), and [webinars](#), while Adobe Connect for individuals enables web meetings (only), with supported features (and differences) noted below.

For enterprise/business/agency purchasing options, please contact your Adobe Connect sales representative or reseller, or contact us [here](#). For individuals or small organizations (up to 9 hosts) with a need for a web meeting solution, Adobe Connect for Individuals may be ideal, and can be [purchased online here](#).

Available: ● Partially available: ◐ Not available: ○

Features	Adobe Connect for Enterprises/ Businesses/ Agencies	Adobe Connect for Individuals (Per Host)	Adobe Connect for Individuals (Pay-Per-Use)
Licensing options	Multiple (contact sales)	Per host (buy online)	Pay-per-minute (buy online)
Max attendees per meeting: Adobe Connect for Enterprises offers licensing options with 100 attendees or more per meeting, and webinar licensing with room sizes up to 1,500 attendees.	Up to 1,500	Up to 25	Up to 500
Max hosts per account	Unlimited (depends on licensing)	Up to 9	Unlimited
Instant access and cross-firewall collaboration from virtually any mobile device or desktop			
Broad mobile support across devices and solutions: Adobe Connect offers mobile support for web meetings, training, and webinars on iOS and Android devices.	●	●	●
Host, present, and share from mobile devices: Adobe Connect enables users to fully administer a meeting with start/stop, recording, layout, audio, and participant controls. Upload and present content from the device or library in the cloud (including video, and PPTs that maintain animations, fonts, and formatting), advance slides, share webcams, and whiteboard/annotate (iOS and Android).	●	●	●

Features	Adobe Connect for Enterprises/Businesses/Agencies	Adobe Connect for Individuals (Per Host)	Adobe Connect for Individuals (Pay-Per-Use)
<p>No barriers to entry: Adobe Flash® Player is already installed on virtually all Internet-connected computers worldwide, so users can instantly join, or even host, without any client downloads.</p>	●	●	●
<p>Always-on meeting environments, personalized URLs, and stored in-meeting content: Adobe Connect meeting rooms are persistent - accessible anytime without scheduling. Participants can always join the meeting room at the same, easy-to-remember URL. Hosts are able to prepare the room once—storing content and setting up layouts for continuous reuse—which saves time and enables immediate collaboration without preparation.</p>	●	●	●
<p>MP4 conversion service: Share recordings across any device (including mobile), by queuing and converting recordings to MP4 format. Store MP4 files in the cloud for streaming, or download for off-line viewing or posting. Conversion is done as a service in the cloud, saving user time and the intensive computing resources required to convert files manually.</p>	●	○	○
Richer, more engaging experiences			
<p>Screen sharing, application sharing, polls, Q&A, chat, notes, whiteboarding, and emoticons: Baseline collaboration tools are available to ensure rich collaboration and interactivity amongst participants.</p>	●	●	●
<p>Customizable layouts and interface for efficient collaboration: Arrange windows and functionality (video feeds, shared content, notes, chat, Q&A, Twitter feeds, customized apps, and so on) anywhere in the meeting interface and resize to focus attention. Set up a meeting room with multiple layouts in advance with preloaded content to step through content more efficiently.</p>	●	●	●
<p>Effective videoconferencing with unlimited webcams: Adobe Connect allows an unlimited number of webcam streams to see and react to all participants, enhancing communication during the meeting.</p>	●	●	●
<p>Presentations that maintaining animations, fonts, and formatting: Adobe Connect enables upload and sharing of MS PowerPoint files that maintain native formatting and animations, across any device.</p>	●	●	●
<p>Simultaneous sharing of screens, slides, or content: Adobe Connect allows for multiple screens or pieces of content to be shared simultaneously (e.g. several presentations side-by-side) enabling users with the flexibility to collaborate in the most efficient way.</p>	●	●	●
<p>No required downloads to view and interact with rich media content: With Adobe Connect, you can present rich media and interactive content, including high-quality video, without additional downloads to view the content, ensuring consistent and efficient collaboration.</p>	●	●	●

Features	Adobe Connect for Enterprises/Businesses/Agencies	Adobe Connect for Individuals (Per Host)	Adobe Connect for Individuals (Pay-Per-Use)
Multiple host and presenter roles: Availability of multiple roles enables efficient and effective presentation of content.	●	●	●
Backstage area: Presenters can create new layouts and upload content, and coordinate with other presenters behind the scenes while presentations continue, without disturbing the view of participants for seamless event execution.	●	●	●
Engagement measurement in real time: A dashboard tracks audience engagement and interactivity (poll responses, chat, emoticon usage, and so on) in real time, to help ensure your content is resonating with your audience. View reports afterwards to track engagement levels throughout your session.	●	○	○
Highly interactive recordings, including all activity and video: Recordings capture all in-meeting activity, including quizzes, polls, video, shared links, in-meeting apps, whiteboarding, and file downloads. File downloads and file links remain interactive.	●	●	●
Editing, indexing, and anonymizing recordings: Viewers can quickly skip to relevant information with indexing that happens automatically. You can deliver focused recordings by editing content and indexes online. You can also anonymize participants and hide specific meeting functionality.	●	●	●
Breakout rooms: Participants can be separated into breakout rooms for smaller group interactions. Any content created in these rooms can be saved and brought back into the main room.	●	●	●
Maximize investments through extensibility and integration with existing infrastructure			
Free VoIP: Leverage VoIP at no charge to minimize costs.	●	●	●
2-way phone and VoIP audio: Enable users to join and communicate via both VoIP and the audio conferencing bridge in the same meeting.	●	●	●
Third-party audio conferencing integration: Leverage any audio provider or teleconferencing platform in your meeting. Integrations with popular teleconferencing platforms enable advanced audio controls.	●	●	●
Developing apps for use within the meeting environment: Adobe Connect offers the flexibility to build customized in-meeting apps using Flex and the Adobe Connect collaboration software development kit to handle specialized use cases.	●	●	●
Third-party video teleconferencing integration: Organizations can leverage investments in videoconferencing platforms from within Adobe Connect thanks to a vendor-neutral approach to unified communications and standards-based interoperability.	●	○	○
LDAP integration: For on-premise and managed solutions, Adobe Connect includes native LDAP authentication.	●	○	○

Features	Adobe Connect for Enterprises/Businesses/Agencies	Adobe Connect for Individuals (Per Host)	Adobe Connect for Individuals (Pay-Per-Use)
Enhanced security and control			
Enhanced compliance management with application white and black listing: Administrators can white list and black list applications, limiting screen sharing to only approved applications.	●	●	●
Accessibility and compliance with Section 508 standards: Adobe Connect provides support for accessibility for those with disabilities, including support for real-time closed captioning, keyboard access, and JAWS screen reader support, and other features, with complete VPAT submission posted at http://www.adobe.com/accessibility .	●	●	●
Report on meeting usage, attendance, and interactivity: Run reports as an admin or an individual user across any time period to view attendance, duration of participation, poll responses, levels of engagement, recording views, and more. Engagement reporting is not available with individual purchasing options (enterprise only).	●	◐	◐
Compliance with security requirements: Adobe Connect can support a variety of security controls and compliance requirements, depending on the method of deployment. Adobe Connect on-demand deployment is SOC 2 compliant, as well as TRUSTe and Joint Interoperability Test Command (JITC) certified. Adobe Connect Managed Service is HIPAA and ISO 27001 compliant. More details are available within these security white papers .	●	On-demand only	On-demand only
Multiple deployment options: You can deploy Adobe Connect as a multi-tenant on-demand service, on-premise behind the firewall, or as a single-tenant managed service, helping to deliver the right balance in ease of management, security, compliance, and control.	●	On-demand only	On-demand only
Brand your domain: Organizations can choose a customized domain name to reflect their organization or brand (e.g. adobe.adobeconnect.com). Note that meeting room URL customization is available as well (and available across any purchasing plan)	●	○	○
Leverage an all-in-one solution for digital marketing events and virtual conferences In addition to features above:			
Create, customize, and manage webinar registration experiences: Powered by built-in Adobe Experience Manager technology, you can use intuitive drag-and-drop content creation tools and templates to create richly formatted, branded registration landing pages, microsites, event catalogs, and emails.	●	○	○
Lead management and CRM integration for lead scoring and follow-up: Integration and automated delivery of detailed webinar data into popular tools, such as Salesforce, Eloqua, and Marketo, and other lead scoring systems.	●	○	○
Webinar program analytics and promotional spend optimization: Built-in analytics powered by Adobe Analytics identify top-performing promotions based on qualified leads. Adobe Connect generates rich visual interpretations of data (vs a data dump to be analyzed) across attendance, interactivity, and engagement, for faster decision-making.	●	○	○
Integrate with web analytics: Integrate with a separate Adobe Analytics account to correlate event data with website traffic and other digital interactions	●	○	○

Features	Adobe Connect for Enterprises/Businesses/Agencies	Adobe Connect for Individuals (Per Host)	Adobe Connect for Individuals (Pay-Per-Use)
Deliver a complete digital learning solution across virtually any device In addition to features above:			
Integrated polls and live quizzes: Poll and survey responses can be tabulated in real time, with the option to broadcast results to all participants. Results can be reported on, enabling instructors to assess individuals or collect data.	●	●	●
Industry-leading tools to quickly author and deploy training: Adobe Connect deeply integrates with industry-leading tools, such as Adobe Captivate and Adobe Presenter, enabling users to quickly create or leverage existing content - embedding quizzes, narration, animation, games and simulations.	●	◐	◐
Full deployment and tracking of content is not available with individual purchasing options (enterprise only).			
Virtual and on-demand training: Deliver training via live, interactive classes, or deploy on-demand to facilitate convenient learner access.	●	◐	◐
Full deployment and tracking of content is not available with individual purchasing options (enterprise only).			
Learner tracking and reporting: Track course completion, lesson score, attendance, and interactivity across courses delivered in both live and on-demand formats, for learner assessment and certification.	●	○	○
Curricula and learner management: Create curricula for learners, structured to include prerequisites, completion or mastery requirements, and test-out options.	●	○	○
LMS integration: Push learner scores and progress from Adobe Connect into an integrated LMS or system of record, to manage training from a single system. Enable Adobe Connect virtual classes to be started from within your LMS environment leveraging APIs.	●	○	○
Customizable course catalogs and landing pages: Powered by built-in Adobe Experience Manager technology, you can use intuitive drag-and-drop content creation tools to create customized, richly branded course catalogs, registration pages, and email communications to reach learners and effectively promote training sessions.	●	○	○
